polytec Laminate **BENCHTOPS**

polytec's innovative Benchtops range contains over 150 realistic stone structures, woodgrains and neutral solid colours and remains unrivalled in the decorative surfaces industry.

The Woodmatt laminates match the perception of authentic timber in both look and feel. The new range of **polytec** timber prints blend the old familiar timbers with new neutral coloured tones to evoke the feeling of warmth and comfort. **polytec's** Matera range combines the cool appearance of honed stone in beautiful marble, travertine and cement style prints with an easy care, super matt finish.

polytec's latest Smooth finish is made to reflect a soft to touch finish with slight reflectance values, providing easy maintenance. This finish is made to elevate a base laminate to something far more superior and luxe. Smooth is luminescent and complements the new colour range perfectly, enhancing the importance of texture and feel.

polytec Benchtops are offered in three thicknesses and four different profiles to provide solutions to every day project challenges and enable maximum design flexibility.

The **polytec** colour range is made for the Australian lifestyle, holding perpetual value, and creating a new journey towards sustainable design. The complete array of stone structures and woodgrain benchtops are represented with precision, true to natural materials in colour, clarity and depth, demonstrating investment in state-of-the-art manufacturing technologies.

Xenolith BENCHTOPS range

Dark coloured surfaces will show fingerprints and require more care and maintenance than lighter coloured surfaces. It is recommended to test a product sample prior to colour selection.
